

## Elite Chairs

*Where Comfort is Essential*

Shown with optional depth adjustable arms

### The ideal solution for your positioning and pressure reduction needs!

- Infinitely adjustable tilt and recline helps **control slumping, sliding and falls without the use of restraints**
- Broda Comfort Tension Seating™ helps **prevent skin breakdown**
- Integrates into **No-Lift** and **Safe Patient Handling** programs
- Offers positioning for even your most **difficult to seat residents**. Ideal for **severe agitation and involuntary movement**
- **Increases interaction** with other residents and staff, **enhancing quality of life**
- **Reduces the amount of time and effort** required of caregivers

Extremely durable and stable frame **enhances resident safety**, while **reducing chair maintenance and replacement cycles**

## Broda chairs offer the most versatility to help you meet your needs

### 785 Tilt Recliner

*Up to 40° of seat tilt and 90° back recline  
Trendelenburg capable  
Semi recline option available*

- Full Recline, with removable arms, allows for easy lateral transfers and changing of incontinence products
- Residents can sleep in the chair – meaning less transfers!

### 85V Tilt Chair

*Up to 40° of seat tilt*

- Exceptional for residents who tend to slump or slide, but may not require recline
- Tilt-only feature keeps resident's hips at a fixed angle to accommodate hip contractures

### NEW Option!

Long Armrests  
(for seat mounted arms)

Long armrests provide additional comfort and support while in a reclined position.

### Broda Comfort Tension Seating™

- Patented formula allows straps to contour to the body for support and long term sitting comfort
- Strapping redistributes pressure helping to prevent skin breakdown
- Space between straps creates air flow, helping to reduce heat and moisture build up that can lead to skin breakdown

Memory retention enables straps to return to their original shape within seconds.
